

OTTO – ZERO TOLERANCE, TARGET ZERO

Quarry and Mining Manufacture Safety Charter

Our Vision

At Quarry & Mining Manufacture we are committed to achieving Zero Harm. Safety is our **first** consideration and is fundamental to our culture. We believe that every injury is preventable.

All employees have the right to return home healthy at the end of the day. Every QMM employee is responsible for working safely and participating in continuous safety improvement.

Our Behaviour

We think safety first. We consider our health and safety first and foremost in our daily tasks.

We continuously improve. Our culture and systems are structured around continuous improvement through total engagement, communication and a collaborative environment.

We strive for personal improvement. Through ongoing training we are committed to setting the standard amongst our peers.

We provide clear leadership, direction and mentoring. Through regular safety conversations we take responsibility for our own safety and that of our work colleagues. We expect all employees to consider not only their own safety but that of their workmates and visitors. We strive to promote a culture where reporting of incidents and near misses is valued.

We network. Through sister company networks, email alerts, safety peer networks, meetings and seminars we raise awareness of hazards, trends and industry best practice.

We deliver safe outcomes for our clients. We value and meet the safety expectations of our customers through all levels of our work.

Our Commitment

All accidents and injuries are preventable.

Each Manager is accountable for promoting Zero Harm and will demonstrate participation and leadership towards this outcome.

We are responsible for the safety of each person in our work environment and will ensure our colleagues return home safely each day.

We are committed to continuous improvement through safety conversations.
